

This project has received funding from the European Union's Seventh Framework Programme for research; technological development and demonstration under grant agreement n: 607480

LARGE SCALE INFORMATION  
EXPLOITATION OF FORENSIC DATA

## D11.4 PROJECT WEB SITE

### LASIE Project

*FP7 - SEC-2013.1.6-1 - Framework and tools for (semi-) automated exploitation of massive amounts of digital data for forensic purposes – Integration Project*

**Grant Agreement n°: 607480**

Start date of project: 1 May 2014

Duration: 42 months

Document. ref.: D11.4/INNEN/WP11/V1.0

## Executive Summary

This report describes the LASIE website content and structure supported by screenshots of the online site.

The website, available since M3 at the URL <http://www.lasie-project.eu>, is the main communication channel developed and used by the LASIE consortium to:

- ensure adequate presence of the LASIE project on the web;
- inform target groups and general public about the aim and objectives of the LASIE project;
- disseminate project's activities and initiatives;
- support the creation of synergies with similar projects to attract and concretely involve the relevant actors within the framework of forensic data manipulation and analysis;
- be the main tool to communicate, transfer knowledge and exchange information facilitating the collaboration between the potential users and the further extensions and adoption of the project outcomes.

The dedicated server hosting the LASIE website ensures flexibility to choose the most appropriate tools and technologies to support the website's evolving requirement.
